

MOVING SIMPLIFIED

HELPFUL GUIDES

DIY Packing & Ready to Move Guide

This Guide was created to assist the “Do-It-Yourself” type person in properly preparing for your move with Moving Simplified.

Many customers feel the need to help but are physically unable to do the heavy lifting that is often required with moving. Don't worry; you can still be a huge assistance to our movers, helping to give you the most cost-efficient move possible!

Below is a list of several tasks that can be completed prior to your move date, giving your movers a head start.

- Disassemble all beds, washers & dryers, mirrors etc., prior to the movers arriving
- Place all the boxes on the first level, closest to the front door, in stacks of similar sizes
- Customers moving locally have the option of moving the smaller items by yourself, ensuring the most cost- efficient move. This allows for our moving specialists to arrive and move only your larger, heavier items.

We look forward to providing you a quick, cost-efficient move for your next move!
